

## Tips when Using Elite Field

Here is some information to get you started with using Elite Field. We highly recommend using the available resources to learn about Elite Field.

Specifically, “Using Elite Field Offline”, “Logging in to Elite Field: Online and Offline” (this includes information to bookmark the Offline login page).

Please review additional information for Elite Field in order to understand how this offline feature of Elite functions further.

In addition to the documentation provided, we have Elite Field webinars that are helpful to train your providers to use in the field.

All the above resources can be found by navigating within Elite to Community > Help/University.

### The attached documents will help you get started:

- Browser Caching– Microsoft.pdf and Mac/iPad.pdf - A document explaining about Browser Caching within Microsoft and iOS platforms.
- Elite Web and Elite Field Diagram.pdf – a simple diagram that shows how Elite Web vs Elite Field and exchange data.
- Elite Web and Elite Field Icons - For your bookmarked URL's

### Login Information:

1. Elite Web URL: <https://southcarolina.imagetrendelite.com/Elite/Organizationsouthcarolina/>

- a. This will be used for configuring your site, reviewing and QA'ing incidents
- b. Internet connectivity is required to log in

2. Elite Field

URL: <https://southcarolina.imagetrendelite.com/Elite/Organizationsouthcarolina/RunForm/Login>

- a. You will want to bookmark this page on the hardware your applicable EMS crews will be using in the field to document their ePCRs.
- b. Access to this URL does not require internet connectivity in order to log in

### Tip

- Chrome is best on Microsoft and Android devices.
- Apple only works on Safari.
- IE is no longer supported and Edge has VERY limited Cache storage
